## HIGHLIGHTS

### OPEN SUN PILOT

STANDARD EQUIPMENT

Open Sun Pilot's six Ultra Performance high-pressure units with two additional UV-B lamps give you a sumptuous face and body tan that will last.

Two hand tanners at 200W each complete the picture for the upper body.

Open for a design that's out of the ordinary? The open design in Open Sun Pilot is as unusual as the open tanning style it embodies.

A sleek silhouette, illuminated blue moulded seat, and illuminated Ergoline logo spell relaxed tanning.

Sit down and relax. The comfy seating position, wide handrests and large footrests put you at ease throughout the tanning session.

Multistep facial ventilation keeps a pleasant, even temperature during your tanning session.

Our standard Aroma function spreads a fresh scent across your skin with a mist of fine essences sprayed into the tanning tunnel.

You can control all of the service and operating parameters from your PDA via an innovative IR interface. A password set by the salon operators protects your sunbed from tampering.

OPTIONAL

Twelve UV lamps optionally fitted into the transparent moulded seat tan the back of your neck down to your back.

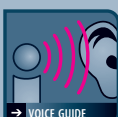

Aqua Fresh in Open Sun Pilot gives you a particularly fresh tanning session, its fine spray mist livening you up as you tan.

Our 3D-Sound System will bathe you in a sumptuous sea of sound as you tan. The system consists of two speakers, a subwoofer, and an SD card slot and MP3 dock-in.

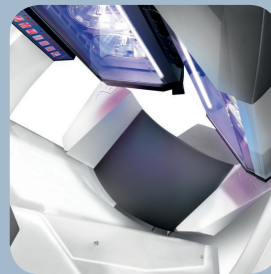

Automatic Volume is a new feature in our 3D-Sound System, and automatically adjusts music volume to background noise levels.

Voice Guide walks you through every step in a pleasant, friendly voice as you control the sunbed.
